

**Trinity Yachts 161 Tri Deck**  
 This is the most powerful and spacious motor yacht in the world. The 161ft Tri Deck is a true motor yacht, with a full cabin, full cockpit, and full deck. The yacht is built with aluminum hull and superstructure, and is designed for long-range cruising. The interior is finished with high-quality materials, including stonework, wood, and nickel accents. The yacht is powered by two Caterpillar engines, and has a top speed of 20 knots. The yacht is built by Trinity Yachts, and is available for sale through their website.

**Trinity Yachts 161 Tri Deck**

After a brief christening ceremony by the new owner, Destination Foxharb'r Too has been launched by Trinity Yachts Gulfport. Whilst the 161ft Tri Deck's aluminium hull and superstructure were designed and built by Trinity, the refreshingly cool interior was contributed by Patrick Knowles. Her internal style is influenced by a European Spa Resort and features stonework showcasing Beaumaniere Limestone, River Rock Pebbles and Walnut Travertine. These are offset by satin nickel accents and a rich millwork palate of Redwood Burl, Lacewood, Macassa ebony and Honduran mahogany. Hand carved glass panels inset into passage doors throughout, adds a sense of art and dimension to her interior. A stunning Mural on the forward bulkhead of the dining room provides a dramatic backdrop for the otherwise serene decor. The split-level owner's suite offers magnificent 180-degree views and accommodation is available for an owner's party of twelve in six staterooms and a crew of twelve in six cabins. The propulsion comes from two Caterpillar engines 3512B, producing 2250hp and approximately 20 knots. **Builder: www.trinityyachts.com**

**Below:** Emerging blinking into the sunlight the latest Trinity Yacht is born. **Below Right:** Packed with power Baja's Hammer X muscleboat sports a small cuddy.
