## A Triple Play for Trinity

[Click image to enlarge.](#)

Louisiana-based **Trinity Yachts** has unveiled the 142-foot *Big Zip*, the 164-foot *Imagine*, and the 190-foot *Mi Sueño*. *Big Zip* and *Imagine* emerged out of the builder's New Orleans yard, and *Mi Sueño* came from the company's Gulfport, Mississippi, location.

*Big Zip* is a sister ship to *Big City*, which launched in 2009. Trinity's naval architect Geoff Van Aller designed both *Big Zip* and *Imagine*, each of which is built in aluminum. Evan Marshall designed *Big Zip's* interior, and Sylvie Charest created *Imagine's*. Both *Big Zip* and *Imagine* sleep 10 guests in five staterooms. *Big Zip* rides on two Caterpillar C32Es with 1,825 hp each, and *Imagine* sports two 2,250 hp Caterpillar 3512Bs. *Imagine* tops out at 20 knots and cruises at 18, with a 4,000 nautical mile range. Both yachts are ABS classed and MCA compliant. *Imagine* will be delivered to a repeat client this month, and *Big Zip* is scheduled for June delivery.

Also built in aluminum, the 190-foot *Mi Sueño* features a Patrick Knowles interior and accommodates 14 guests in seven staterooms. All three of its decks can be accessed via elevator. Space on the flybridge makes way for touch-and-go helicopter operations. A 5,000-pound davit launches tenders from the garage, and a bow davit and flybridge davit take care of the rescue tender and water toys. Two Caterpillar 3516 HD engines give *Mi Sueño* a maximum speed of 20 knots and a 17-knot cruise speed, and the vessel's range is 4,000 nautical miles at 10 knots. The MCA-compliant and ABS-classed *Mi Sueño* is being delivered this month. (228.276.1000, [www.trinityyachts.com](http://www.trinityyachts.com))
