164' (49.9m) LADY SURA Launches at Trinity Yachts

7 September 2012, Gulfport, Mississippi: Trinity Yachts is pleased to announce that *Lady Sura*, its newest 164' (49.9m) tri-deck custom built superyacht with aluminum hull and superstructure, is launched. Her delivery is scheduled for 2012.

Features of this beautiful yacht include a full beam two-level master suite on the main deck with forward panoramic viewing windows, four guest staterooms located below and one VIP guest stateroom on the 01deck. The interior, designed by Patrick Knowles, is rich in Anigre, mahogany and varied burl finishes.

The sky lounge is panoramic and the flybridge features a hot tub. A large tender garage aft provides ample storage for the tender, jet skis and water toys.

Lady Sura will have a top speed of over 19 knots with a 4,000 nautical mile range at displacement speeds for extended cruising. Her draft of 7'8" (2.4m) enables *Lady Sura* to frequent shallow water harbors and ports, making island hopping easy and accessible.

Lady Sura is every meter a Trinity and exemplifies what it means to build a custom yacht. So much so that over the course of her build, Trinity and *Lady Sura*'s owner agreed to design modifications to the original contract, allowing her owner to take full advantage of the most up-to-date technologies available.
